About the Course

Mathematics for Data Science II

Course ID: BSMA1003

Course Credits: 4

Course Type: Foundational

Pre-requisites: BSMA1001 - Mathematics for Data Science I

Faculty:
Dr. Sarang S Sane
Assistant Professor, Department of Mathematics, IIT Madras

Course instructors:
Dr. Prerak
Dr. Lavanya
Abhilasha

Prescribed Books:
The primary study material will be the videos and the assignments posted on the course portal.
One may also refer to:

Title: **Mathematics for Machine Learning** Author: Marc Peter Deisenroth, A. Aldo Faisal, and Cheng Soon Ong. Publisher: Cambridge University Press ISBN: 9781108455145
(The PDF of this book is currently available freely at https://mml-book.github.io/book/mml-book.pdf)

Title: **Vector Calculus** (By Michael Corral) (Available freely online)

The learners are advised to make best use of the interaction sessions with the course support members to clarify their doubts.
Suggested way to attempt the assignments: 1. Watch the lectures. 2. Attempt solve with us assignment. 3. Attempt Activity questions of each lecture. 4. Attempt practice assignments. 5. Attempt graded assignment.
